## MORMON CAPITAL

ONE MILLION NOW WAITING  
TO BE INVESTED HERE

Mormons Don't Fear Results of Prohibition—Will Be Ready to Invest in This County if People Become Alarmed at Imaginary Results and Sell Out Cheap—Prominent Mormon Views the Subject From a Philosophical Standpoint—Watching the Result and Will Be Ready To Bring \$1,000,000 Here if People Get Scared.

"If your Pendleton and Umatilla county merchants and business men are scared at the prospect of prohibition carrying in your county and wish to sell their property at a reduced price on that account, the Mormons would be glad to know it, and will take up every proposition of that kind," said a prominent Mormon capitalist, of La Grande, to the East Oregonian today.

"We have never known good morals to hurt any community yet, and we have the reputation of having done a little pioneering in our time. In Utah we find that the absence of the saloon has not affected the wheat yield; it has not reduced the alfalfa crop, at least within my memory.

"Cattlemen and sheepmen from the interior buy just as many supplies in our dry towns as in our wet ones, wheat grows just as luxuriantly, working men earn just as much money and railroads haul just as many tons of freight and hire just as many men in prohibition districts as in wet ones. Wool will continue to come to Pendleton, flour will continue to be ground, blankets will still be manufactured there and the schools will still be open. Children need shoes, books, clothing, food and toys, and men will still wear clothes, eat beefsteak and fruit and go to theaters and live and die, as always.

"We have never found that an increased number of saloons increases the sugar beet yield. It never advanced the price of wages, nor made two blades of wheat grow where one grew before. The Mormons are not generally prohibitionists in principle, but they are prohibitionists in practice, and have built up some of the best towns in the west, without a saloon within their borders.

"We are just looking for an investment of this kind. There is a million dollars of idle capital now lying in Salt Lake and Ogden banks, waiting for just such a magnificent opening as this would be, should your people become alarmed at the imaginary danger of prohibition and sell out at reduced prices in order to escape the financial ruin that they think would follow.

"I understand that Pendleton consumes 300,000 pounds of butter annually and imports every pound of this vast amount. I am ready to lease the best location in your city now occupied by a saloon, for the establishment of a \$7,000 creamery plant, if prohibition carries in Umatilla county, my lease to begin the morning after election."

### 7,000 WALLOWA EWES.

Bought of Kuykendall and Will Be Sent to Yakima.

Seven thousand head of old ewes from the Wallowa ranges were brought into Pendleton yesterday for shipment to North Yakima. The animals were purchased by William Vessey from Roy Kuykendall. In discussing the sheep market, Mr. Kuykendall said:

"The trade in sheep, especially old ewes and yearlings, is very brisk. Few lambs are being sold, but the sheepmen are getting rid of their old stock. The reason for the sale of so many sheep to Yakima dealers is due to the fact that the Seattle markets are reached easier from that point than from Wallowa.

"I look for good prices in wool and mutton next spring. The demand is steadily increasing. Old ewes for mutton purposes bring as good a price as any other kind of sheep. When fattened quickly they prove equally as good as wethers."

### GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newb's Herpicide.

Frederick Manuel, Maryland block, Butte, Montana, bought a bottle of Newb's Herpicide, April 8, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 3 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newb's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 5c in stamps for sample to The Herpicide Co., Detroit, Mich. F. W. Schmidt & Co., special agents.
